Dear HUMAN RECIPIENT at the FAX for the San Bernardino Department of Public Health,

There most likely remains an order restricting my use of these communication channels --- but please please please call the police and report a violation of the order in place. I want you to hold the police accountable for the materials that I have indeed tweet attached to them in reference to Mass Gun Shootings ----

How the Erosion of Trust Leads To Murder and Mass Shootings.

I have placed the following DOCTOR ACCOUNTABLE PERSONS in a BINDING and that BINDING WILL NOT BE RELEASED until there is an UPRIGHT LOCAL DISCUSSION why I am left to be the status: #HIVUntreatable.

## Foothill Aids Project

670 N Arrowhead Ave Suite A-B, San Bernardino, CA

**Aaron Jacobson**

Local Guide | 11 review

a year ago

This agency is FRAUDULANT in its services and practices when it comes to serving the HIV population and utilizing Ryan White Funding. My recommendation for any HIV client interested in signing with them is to run as far and as fast as you can...they treat HIV consumers with contempt and unprofessionalism.

**"Stay Away"**

Former Employee - Medical Case Manager in Colorado Springs, CO

Doesn't Recommend  
Negative Outlook  
Disapproves of CEO

I worked at Colorado Health Network full-time for more than 5 years

**Pros**

This unfortunately is a area that there is nothing to promote as there are no Pros to this job.

**Cons**

EEOC violations, confidentiality compromises of the people they are supposed to protect, pay is below average and benefits are horrible. The CEO is below the bottom of the swamp in regards to leadership.

## **"Employment"**

Former Employee - Client Services in Denver, CO

Doesn't Recommend  
Negative Outlook

I worked at Colorado Health Network for less than a year

### **Pros**

Case Managers are not micro-managed, occasionally drug companies will come in and bring free lunch, relaxed dress code, on a major bus line

### **Cons**

Management is awful. They do not trust their employees with anything - not even tissues. If you want a box of tissues you have to go to upstairs and talk to the them. One person stores them in his office. They had a big "investigation" because two employees quit because of racism and discrimination within the organization - the "investigation" was "inconclusive". They had a meeting with all of the staff (that was announced 24 hrs prior). Regarding discrimination. It was said that we were diverse "we have one of everything". How can an organization thrive when a top official is racist? If you are a woman or person of color, it is very hard to move up in the org and be heard. If you are a cute, white male, you will do well in this company. Turnover is high!

Show Less

### **Advice to Management**

Maybe start with a little bit of respect (for clients and staff)?

## "Disappointment and Mendacity"

Helpful (4)

Former Employee - Not Safe to Disclose in Portland, OR (US)

Doesn't Recommend	Negative Outlook	Disapproves of CEO
I worked at Cascade AIDS Project full-time (More than a year)		

### Pros

The community members living with HIV are some of the most dynamic and resilient people you may ever meet. Working with those who are still suffering profoundly impacts you deeply and personally. CAP has a mostly young vibe and the work is interesting due to its complex nature. Downtown location is convenient.

### Cons

Management is hostile to the union represented staff. The organization only works with a narrow part of the community yet markets something different to look more comprehensive than it is. Much of upper management is threatened by change, is conflict avoidant to the point of dysfunction and is retaliatory when confronted. Often, people with poor skills are promoted to leadership and this creates frustration and a sense of unfairness highlighting backroom agreements meant to undermine. Morale is dreadful. In the past few years most staff have been fired, pressured to leave, or asked to work with compromised ethics. Gay, black, HIV+, and trans identified staff have been systematically marginalized. CAP treated HIV+ staff as second class citizens, ignored client request for change, and silences critics. If you go against CAP, even if justified, you will find it hard to work in the HIV community in Portland. The board is completely distant from the staff and the clients being served, and act condescending and unhelpful. You would think if 50% of the staff leave in a few months time, it might be a wake up call that there are big problems that can't be dismissed as "disgruntled" staff. Since CAP is the only game in town for HIV related needs, they have no checks and balances and no accountability when they injure the community they are claiming they serve.

Show Less

### Advice to Management

Stop displaying images and raising money through deception. Admit you do not serve the community at large and close your doors. CAP is not about HIV anymore, it's about retaining jobs and keeping people working at the expense of programing and directives that empower. If you want to be a LGBTQ health center then so be it, but do not pretend you are helping people living with HIV, because you are not. You are only focusing on addicts and the mentally ill. Also, an LGBTQ health group or HIV group with no gay or HIV+ leaders, or people of color managing direct services means you will be just like any other colonized public health care model that delivers incompetent care. The community does not need public health zombies, we have them already. We also do not need tokenized minorities to cover for the heteronormative, white, middle class faux professionalism that is the root of the HIV pandemic to begin with, and abundantly present in CAP management's ranks. There is a big problem when the public adores you and your clients and the community you claim to serve would rather go without then be at the mercy of a place they distrust and dislike.

**".....and another one bites the dust."**

Current Employee - Anonymous Employee in Norfolk, VA

Doesn't Recommend  
Negative Outlook  
Disapproves of CEO

I have been working at ACCESS AIDS Care full-time

**Pros**

None come to mind at the moment and I am really trying to come up with one or two.

**Cons**

-Executive Director angry and VERY retaliatory. -Mismanagement of grant funds. AGAIN.  
-Executive Director still there even after extortion case. -Very unorganized . -Favoritism if your in the click. If not oh well. -Treats employees and clients like they are nothing. -Low pay for an extreme amount of committment. -ZERO ROOM FOR ADVANCEMENT. -If I could leave zero stars i would.. -I'm sure you get the picture.

**Advice to Management**

Restructure the entire organization starting at the top and working down. Why the Board does not see where the problem lies is beyond me which makes me look at the Board as well.

**Doctor Berger,**

I do not know what it will take for you to respond a response of responsibility. This web presence is holding a binding. You are in a different paradigm here understanding perhaps to conclude that you would not want to remain public visible in this attention getting light for an extended duration. What appears to be a business card is sourced from your actual doctor licence site. The source image is quickly found by google images search using your name. Further does not have a copyright affixed which means it is public domain useable. I choose to take advantage of that status. For anyone to perform an image search of your name, it might be noticed there are other images in the return results displayed to the public interest of these circumstances documented by this networking web presence. This places a binding on to this casting that you as the subject of this web presence would not just ignore this! It seems strange or a skew from any kind of normalcy that such exposure creates affixed to your name. Some might make the obvious conclusion that you are a bit [ or a boast ] irresponsible somehow to hold this web presence status in the first place. Further dynamically applied that would be for an extended period of time would be conclusive that you can't find yourself to right a wrong that you are involved in somehow. Even if that would be to make a domain query "content removal request". This web presence is demanding your accountability response upon matters which you internally know. These matters are too important of a contentious state life and death health related matters of a community to leave in silence holding an "intractable conflict" status.

**What is a NPI Number?** : The National Provider Identifier (NPI) is a unique identification number for covered health care providers. The NPI is a 10-position, intelligence-free numeric identifier (10-digit number). This means that the numbers do not carry other information about healthcare providers, such as the state in which they live or their medical specialty. The NPI must be used in lieu of legacy provider identifiers in the HIPAA standards transactions. Covered health care providers and all health plans and health care clearinghouses must use the NPIs in the administrative and financial transactions adopted under HIPAA (Health Insurance Portability and Accountability Act).

**Where NPI should be used?** : The NPI must be used in place of legacy provider identifiers, such as a Unique Provider Identification Number (UPIN), Online Survey Certification & Reporting (OSCAR) and National Supplier Clearinghouse (NSC) in HIPAA standard transactions. There are two categories of health care providers for NPI enumeration purposes. Entity Type 1 providers are individual providers who render health care (e.g., physicians, dentists, nurses). Sole proprietors and sole proprietorships are Entity Type 1 (Individual) providers. Organization health care providers (e.g., hospitals, home health agencies, ambulance companies) are considered Entity Type 2 (Organization) providers.

**Who must obtain NPI?** : All health care providers who are HIPAA-covered entities, whether they are individuals (e.g., physicians, nurses, dentists, chiropractors, physical therapists, or pharmacists) or organizations (e.g., hospitals, home health agencies, clinics, nursing homes, residential treatment centers, laboratories, ambulance companies, group practices, Health Maintenance Organizations [HMOs], suppliers of durable medical equipment, pharmacies) must obtain an NPI. The NPI will be used by HIPAA-covered entities (e.g., health plans, health care clearinghouses, and certain health care providers) to identify health care providers in HIPAA standard transactions. A covered health care provider, under HIPAA, is any health care provider who transmits health information in electronic form in connection with a transaction for which the Secretary of Health and Human Services has adopted a standard, even if the health care provider uses a business associate to do so.
